

Mag. Dr. Bettina Iris Maderner, Bed. MA

Born in 1975, married, mother from one daughter and two sons

Personal profile

Health and nursing scientist, Midwife and Construction engineer. Both as a manager in the health and education sector and as a teacher and researcher, I have acquired a profound knowledge in the health and social sector. Basic training in civil engineering complements my profile. Being an achiever who complies with the most demanding professional standards, I view my value proposition in my broad professional experience background, high flexibility and the ability to adapt quickly to new situations with high effectivity and efficiency of work
